EDUCATION

State University — B.S. in Computer Science (GPA: 3.8 / 4.0)

Graduated May 2025 • Relevant Coursework: Data Structures, Web Applications, Database Systems, Software Design

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML5, CSS3

Frameworks & Tools: React, Next.js, Node.js, Express, PostgreSQL, Git, Tailwind CSS, Jest, Docker

FEATURED PROJECTS

TaskFlow — Team Task Management Web App (React, Node.js, PostgreSQL)

- Built a responsive full-stack task manager with real-time updates and user authentication.
- Designed clean PostgreSQL database schema for users, project boards, and task assignments.
- Implemented drag-and-drop task organization and automated email notifications for upcoming deadlines.

Campus Marketplace — Student Exchange Platform (TypeScript, React, Express)

- Developed an online student marketplace for buying and selling textbooks and course materials.
- Created intuitive search filters by course, department, and condition, serving 500+ active campus users.
- Integrated secure JWT session management and responsive mobile-first UI with Tailwind CSS.

WORK EXPERIENCE

TechCorp Solutions — Software Engineering Intern (June 2024 – August 2024)

- Developed and tested customer-facing dashboard features in React and TypeScript.
- Collaborated in weekly agile standups and sprint planning to deliver features on schedule.
- Wrote unit and integration tests using Jest, maintaining 85% test coverage across core components.
